

Steps to Install Microsoft (MS) Office 2021 for Free:

1. Configure the office version to install
2. Download the Microsoft office 2021 deployment tool
3. Run the Microsoft office deployment tool
4. Run the command shown in the template

Microsoft Office 2021 Customization Tool:

<https://config.office.com/deployments...>

Microsoft Office 2021 Deployment Tool:

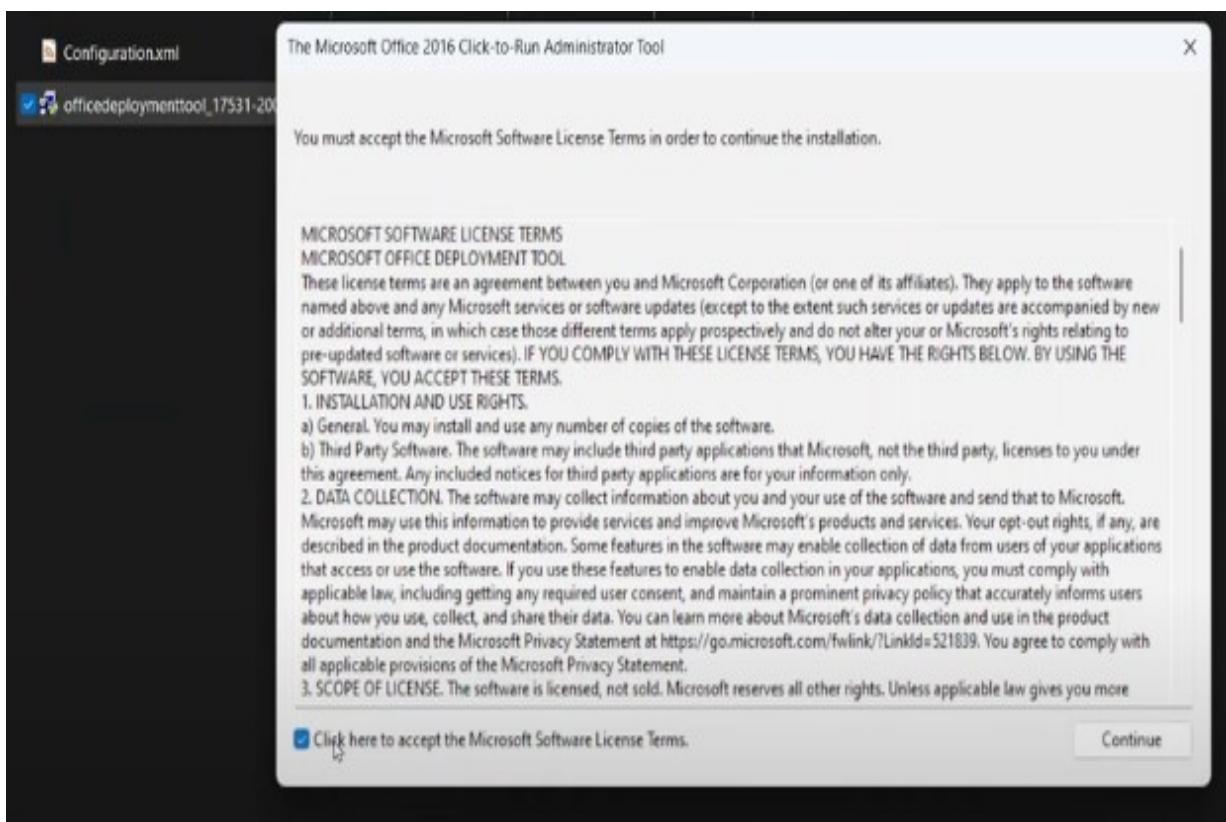

<https://www.microsoft.com/en-in/downl..>

Paste the **Set up** and **Deployment** tool file to **C** drive.

Open the file then click open the **Deployment** tool.

If it asks “do you want make change to the Device” **click “yes”**.

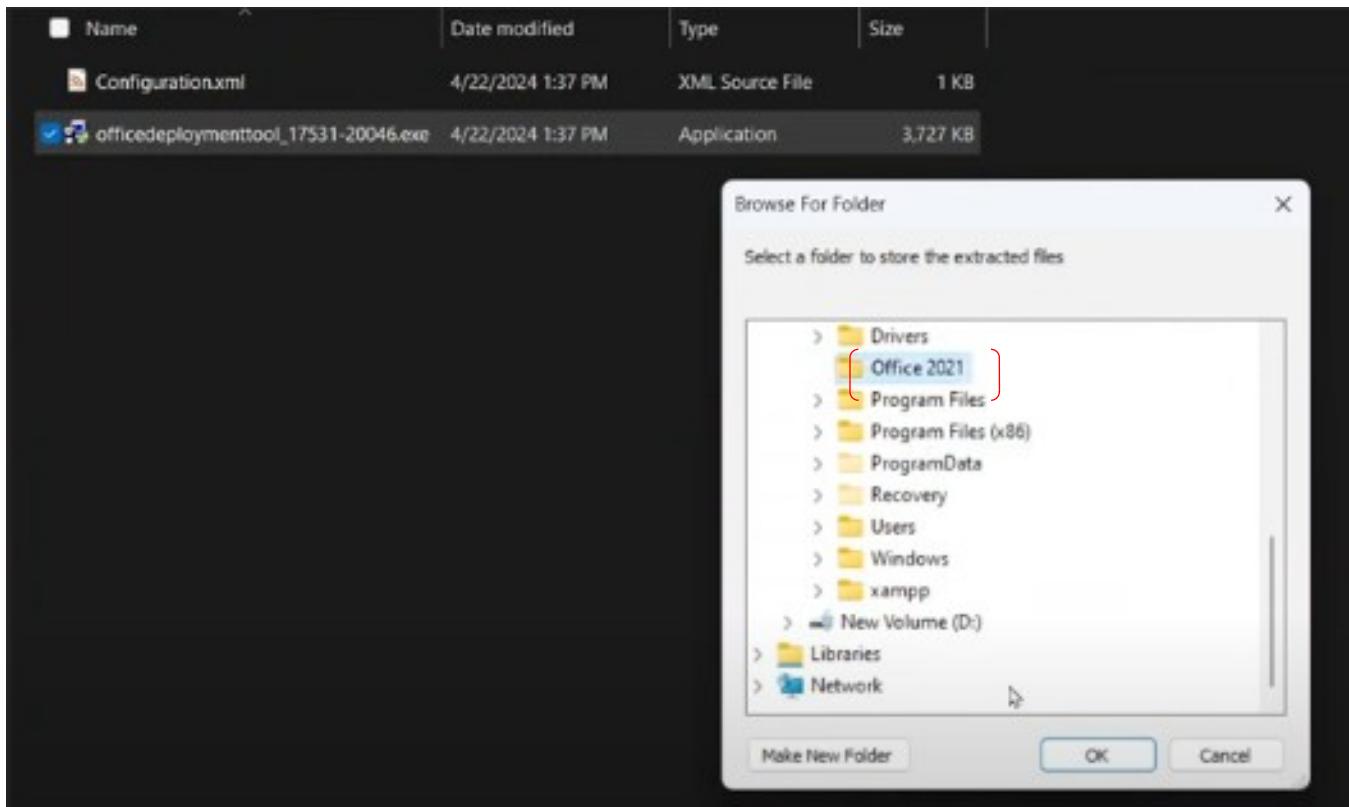

When this below window opens click accept **“yes”** as shown below and click **“Continue”**.

Next when this window opens.

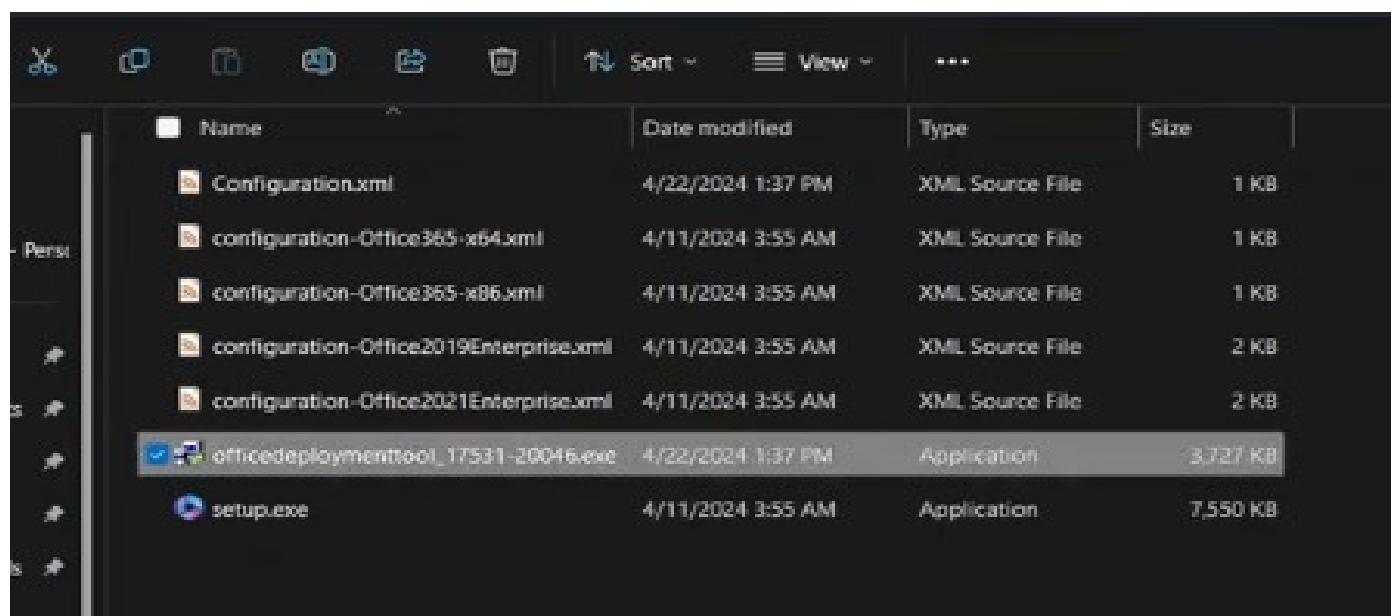

Select a folder where to instal the files. Go to **“this PC”**

Click the file you paste **MS Office 2021. 64-bit** or the folder that you pasted to **C** drive before.

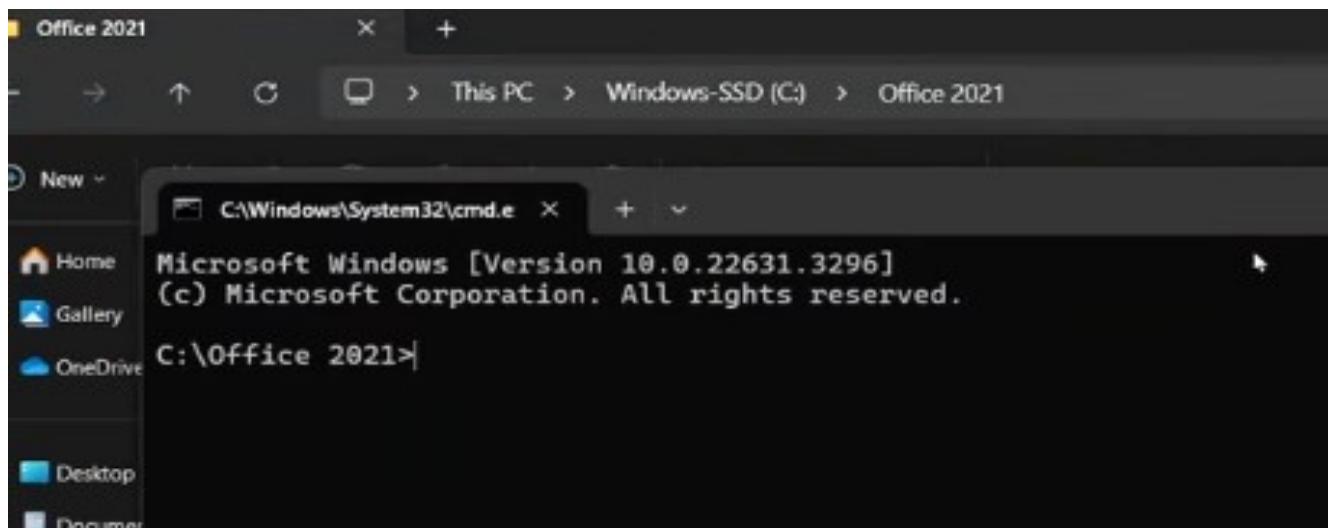

Click 'OK'.....

You will see the files down loaded as below.

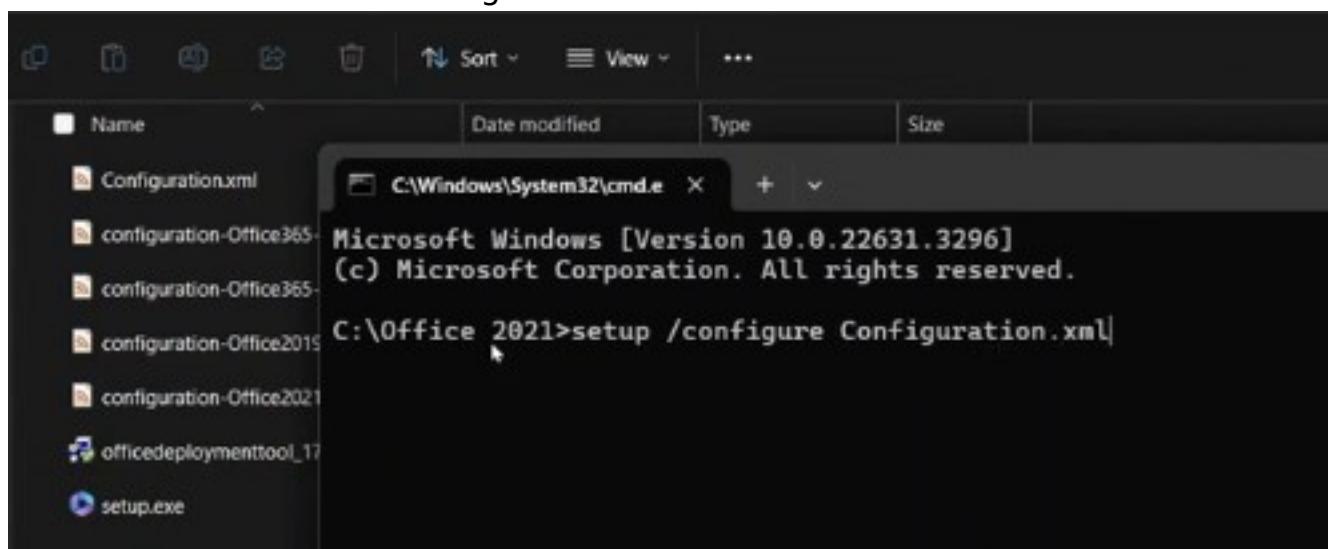

Now Go to your address bar and type “**CMD**” hit enter.

When you come to below page – type **setup space / Configure.xml**

Or type configure and hit Tab it should fill auto as below.

Hit **enter**. Allow to make changes “**Yes**”

Your Office will be downloaded and activated.
